ICE HOUSE MUSEUM, HOTEL DEL CORONADO, CORONADO CA

HOTEL DEL CORONADO HISTORY EXHIBITS

The Hotel del Coronado began an ambitious restoration process in 2019 to restore the hotel's original south entrance and revive several on-site industrial buildings to modern uses. The 900 sq ft Ice House building is now the welcoming place for daily tours exploring Hotel del Coronado's 130+ year history. In addition, it is a flexible public and privately rented space showcasing Hotel del Coronado's outstanding reputation as a National Historic Landmark.

Design considerations focus on the preservation of the historic Ice House architecture and space. Exhibit elements include moveable walls, large wall-mounted colorful vintage postcards, black and white photos, promotional ephemera, touchable and display artifacts and/or reproductions.

Project for Hotel del Coronado, Completed August 2021.

Design, content development and production/installation coordination by Krimmel Arts & Design and Artefact Design.

Exterior entry panels mounted to new sub-frame attached to existing brick wall.
